## Operator Booking Engine – Expressions of Interest

Do you currently have live availability on your website?

An exciting new gadget has become available through our booking platform that will load your amazing products directly on to your website using the data you have loaded in Bookeasy.

We're looking for a couple of operators who'd be interested in testing out this platform to see if works for you and whether it drives an increase in conversions.

If you'd be interested in giving this a go or would like any further information, email Kylie at [kylie.forgione@tourismwhitsundays.com.au](mailto:kylie.forgione@tourismwhitsundays.com.au)
