

Are you looking to grow your tourism business, but not sure how to go about it?

Do you wish you could have a personal adviser to help you make the best business decisions?

The Australian Government's Entrepreneurs' Programme provides practical advice, matched grants, and access to national networks of business experts.

The Business Management element is available to help you maximise the full potential of the business, by matching you with a business adviser who is an expert in tourism and in business, at no cost to the business. The business adviser will provide practical steps to take to improve your business and maximise growth opportunities. Following the development of an action plan, you may be able to access up to \$20,000 in matched funding to access advice and expertise.
